

How to Play the Body Parts Game

Roll a die to move around the board. When you land on the name of a body part, put a check mark inside the box that points to the correct body part.

If you answer correctly, color the box with the name of the body part. Repeat until you have colored all of the boxes. If you land on the same word twice, roll again.

Let's make a die!

1. Cut along the dotted line.
2. Fold it along the inside to make a cube.
3. Insert the tabs inside and tape the outside of the die.
